Kiinnitettävä seinään
Fäst i väggen
Attached to the wall

Kotisi turvallisuuden vuoksi yli 50 cm korkea huonekalu tulee kiinnittää seinään mukana tulevalla nauhallalla, joka estää kaatumisen. Koska kotien seinämateriaalit vaihtelevat, jää seinäkiinnitysruuvi/naula asiakkaan hankittavaksi.

Vi rekommenderar att mer än 50 cm höga möbler bör fästas på väggen med den medföljande band, som förhindrar kraschen. Eftersom väggmaterial i hemmen varierar kundes måste köpa själv monteringskruv/spik som passar på vägen.

We recommend that more than 50 cm tall furniture is attached to the wall with the included ribbon. The installed ribbon prevents the furniture from crasing. Since the wall materials of the homes vary, the customer have to purchased screw/nail to the wall.

Made in Finland

Huonekalumme valmistetaan Pohjanmaalla, Kurikan Jurvassa. Nykyaikaisessa, pitkälle koneellistetussa tuotannossa työskentelee 30 kalustealan ammattilaista. Periaatteemme on toimia luotettavasti ja kannattavasti. Kehittyminen ja muutos koetaan positiivisesti ja on jatkuvuuden perusehto.

Hiipakka-kalusteiden pääraaka-aine on E1-luokan MFC-kalustelevy (Melamine Faced Chipboard), joka on tarkoitettu käytettäväksi kuivissa sisätiloissa ja on VTT:n hyväksymää. Melamiinipinnoite voidaan pyyhkiä nihkeällä ja on erittäin valonkestävä, joten kaluste pitää hyvin värinsä.

Huonekalumme toimitetaan laatikoihin pakattuna, jotta kuormittaisimme mahdollisimman vähän logistiikkaa. Pakatessa tuoteosat tarkastetaan. Porauksiin jää jonkin verran puupurua ja suosittelemme kalusteen kokoamista pakkauspahvin päällä tai muuten suojatulla alustalla, jotta puru ja muu puupöly on helppo kerätä pois. Kotisi turvallisuuden vuoksi yli 50 cm korkea huonekalu tulee kiinnittää seinään mukana tulevalla nauhalla, joka estää kaatumisen. Koska kotien seinämateriaalit vaihtelevat, jää seinäkiinnitysruuvi/naula asiakkaan hankittavaksi.

Mikäli sinulla on kysyttävää tuotteesta, voit olla yhteydessä suoraan meihin. Kehitämme tuotteitamme jatkuvasti ja olemme kiitollisia kaikesta asiakaspalautteesta. Palaute tulee perille nopeasti kotisivujemme kautta www.hiipakka.net

Den huvudsakliga råvaran i Hiipakkas möbler är MFC-möbelskivor (Melamine Faced Chipboard) av klass E1. Dessa är avsedda att användas i torra utrymmen inomhus och har godkänts av Finlands statliga forskningscentral VTT. Melaminytan kan torkas av med en fuktig trasa och tack vare sin höga ljusbeständighet behåller möbeln färgen väl.

Vi levererar våra möbler omonterade, nedpackade i lådor för att minska transporterna. Produktdelarna kontrolleras i samband med nedpackningen. Det finns alltid kvar lite sågspån i borrhålen och därför rekommenderar vi att du monterar möbeln på förpackningskartongen eller på ett annat skyddat underlag. Då blir det enkelt att städa bort spån och annat trädamm.

Kontakta oss om du har några frågor om en produkt. Vi utvecklar hela tiden våra produkter och är tacksamma för all feedback från våra kunder. Dina kommentarer når oss snabbt via www.hiipakka.net.
